PATENT 09/213,856

## Please amend claim 10 to read:

10. The method of claim 8 further including the step of: providing a plurality of speech terms used in connection with specific actions of the system, and wherein said step of providing said associated set of speech terms includes:

storing a relevance table of universal speech input commands and universal computer operations terms conventionally associated with actions initiated by said input commands, and

relating said plurality of speech terms used in connection with specific actions of said system with commands in said relevance table.

## Please amend claim 15 to read:

15. The computer program of claim 13 further including:
a plurality of speech terms used in connection with
specific actions of the system, and
wherein said means for providing said associated set of
speech terms include:

a stored relevance table of universal speech input commands and universal computer operation terms conventionally associated with actions initiated by said input commands, and

means for relating said plurality of speech terms used in connection with specific actions of said system with commands in said relevance table.
